Automation Governance Platform

Unlock the full potential of automation with SmartRoby, a comprehensive governance platform that revolutionizes the way you manage, plan, and execute automated processes

COMPATIBLE WITH ALL LEADING RPA TECHNOLOGIES

Why SmartRoby?

Boosted Efficiency

Unlock up to 80% Time Savings in post-production operations, freeing up your valuable time and allowing you to devote more attention to growing your business.

Optimize Costs, Maximize Savings

Intelligently allocate and manage licenses and infrastructure resources, ensuring optimal utilization and performance.

Seamless Workflow Empowerment

Empowering business teams to manage real-time process executions and promptly address exceptions through manual intervention.

Monitoring for Peak Performance

Monitor resources to ensure smooth process execution and efficient scaling for consistent, reliable results.

SmartRoby empowers all automation stakeholders to manage and gain visibility into their digital workforce.

COE Team

Break free from the routine of scheduling, monitoring, and upkeep, enabling the COE to serve as a strategic business partner.

Business

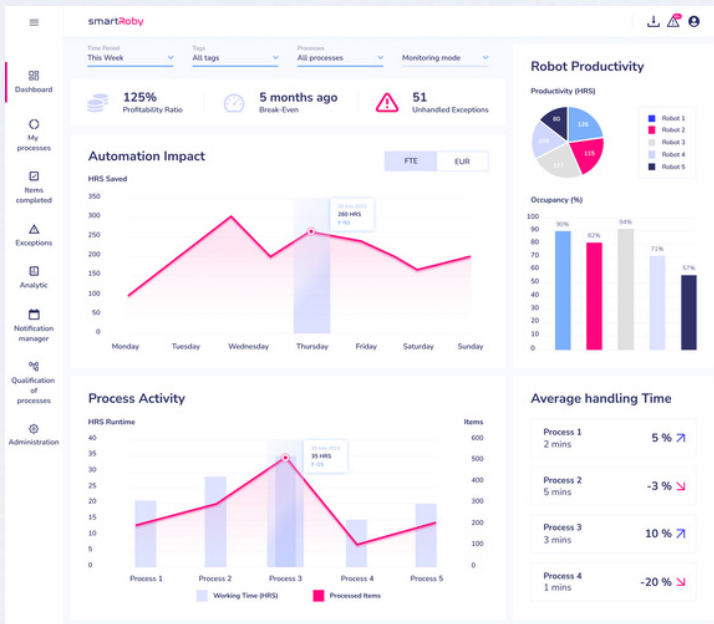

Gain insights into current processes, identify future prospects, and simplify the management of alerts and exceptions, catering to both technical and non-technical users.

Management

Effortlessly track your RPA investments and access key financial KPIs to quantify the actual business impact of automation.

A Tailored Solution Meeting Your Technical, Operational, and Business Requirements

Real-Time, Out-of-the-Box Dashboards

- Monitor financial, business, and operational KPI's
- Transparent overview of performance, aiding in data driven decision-making

Resource Optimization via SmartRoby Queues

- Orchestrate process execution according to SLAs and schedules.
- Offload tedious operational tasks to alleviate staff and create additional time.

Number of licences	5
